

i-tec USB-C/Thunderbolt 3 Triple Display Docking Station + Power Delivery 85W

i-tec USB-C/Thunderbolt 3 Triple Display Docking Station + Power Delivery 85W

PRODUCT DESCRIPTION

USB-C docking station capable of supporting up to three 4K external monitors using any Windows 10 notebook. The integrated DP 1.4 protocol also supports a 5K/60Hz monitor, making this dock an ideal solution for professional graphic designers, data analysts, engineers, film editors or enthusiasts. With up to 85W USB-C Power Delivery via your USB-C or Thunderbolt 3 port, you can charge your notebook while you work.

Connect quickly and easily to your notebook or tablet - no driver installation required - and benefit from a data transfer rate of 10 Gbps via the USB-A 3.1 and USB-C ports, and charge your smartphone via the 10W fast charge port.

Please note, the ability to connect three external monitors relies on the graphics card of your notebook, although the vast majority, i.e. Intel integrated cards, do so. You may need to work with the notebook lid closed to use three external monitors. Connect the dock via a USB-C port that supports video transfer (DisplayPort Alt Mode) and with power supply, or via a Thunderbolt 3 port.

Note: macOS does not support Multi Stream Transport technology (the displayed content would be the same on each screen).

- Connect up-to three 4K/30Hz external displays*.
- Power delivery: 85W
- Features two DisplayPort outputs and one HDMI port.
- 2x USB 3.1 Gen 2, 1x USB 3.1 Gen 2 with fast charge support and 1x USB-C Gen 2 ports make it easy to connect all of your existing USB devices and peripherals. All USB ports provide up-to 10 Gbps.
- Gigabit Ethernet RJ-45 port provides reliable, robust and high-speed internet connection, supporting 10/100/1000 Mbps speeds.
- Combo audio & microphone in/out jack on the front panel.
- Kensington lock slot provides additional security, especially for those working regularly in shared offices or public spaces.
- Power saving On/Off switch on the front panel.
- Supports i-tec docking station VESA bracket for vertical installation behind a VESA-compliant monitor.
- Supports Windows 10, macOS X

- Supplied with 100W (20V, 5A) professional quality power supply and 100 cm USB-C cable.

* For triple external screen support, notebook lid must be closed.
